EDUCATION

University of British Columbia <i>Bachelor's of Science, Cognitive Systems: Computational Intelligence & Design</i> • Cumulative GPA: 94%, 4.33/4.33 equiv. • Relevant coursework (grade %/avg %): Computation, Programs, and Programming (95/76), Models of Computation (93/75), Software Construction (96/77)	Vancouver, BC Aug 2024 — May 2028
---	--------------------------------------

PROJECTS

Product Lead & Full-stack Developer , GrillMe AI: AI Mock Interview Platform devpost.com/software/grillme-ai • Validated product-market fit with 200+ organic waitlist signups and top 4 finish at UBC BizTech/a16z Kickstart, identifying interview prep accessibility gap for early-career students and leading 4-person team to ship MVP in 12 hours • Reduced pain point (<i>time to interview start</i>) by ~80% by defining product strategy that prioritized personalization (resume/JD-tailored questions); coordinated parallel development and made critical scope trade-offs based on early user feedback • Relevant tools/libraries: <i>Figma, Supabase, OpenAI/ElevenLabs APIs, TypeScript, Cloudflare</i>	November 2025
Product Lead & Developer , Mango: Full-Body Gesture Control For Any Game devpost.com/software/mango-full-body-gesture-control-for-any-game • Won 1st place at HelloHacks 2025 by identifying accessibility gap in VR-like gaming experiences and leading team to democratize immersive gameplay without expensive hardware through gesture control system • Delivered low-latency user experience by defining product requirements that balanced technical feasibility with ease-of-use, driving iterative testing that prioritized performance over feature breadth • Relevant tools/libraries: <i>FigJam, MediaPipe, Python</i>	October 2025

WORK EXPERIENCE

Founding Product Lead Rebase • Led product development from MVP to public beta, defining roadmap that prioritized core functionality (alpha) then differentiating features (beta) based on user testing • Managed 3-person engineering team using Kanban and milestone planning; scoped features, identified dependencies, and delegated parallel workstreams to ship on target • Redesigned resume editor around drag-and-drop paradigm based on user feedback; drove 85% latency reduction by defining technical requirements for LLM pipeline	November 2025 — January 2026 Vancouver, BC
Analyst Intern Ratio Ventures Limited • Secured key stakeholder engagement for Aroga's extended seed round, managing investor strategy across 24 portfolio companies through targeted relationship building and strategic pitch positioning • Shaped fund deployment strategy by identifying high-potential ClimateTech verticals in Southeast Asia market analysis, directly informing deal sourcing and screening decisions for fund allocation	May 2023 — August 2023 Bangkok, TH / London, UK

TECHNICAL SKILLS

Product & Analytics: Figma, Figjam, Notion, Cloudflare Analytics, Vercel Analytics, Typeform, Github Projects, SQL Development: TypeScript, Python, Supabase, Git, Cloudflare, Vercel AI/ML: OpenAI, Anthropic, OpenRouter, ElevenLabs, MediaPipe, Tensorflow
--

LEADERSHIP AND ACTIVITIES

Event Committee Executive UBC AI Safety • Grew event attendance by 220% by identifying high-impact event formats and speaker partnerships that resonated with student interests, executing strategic planning that tripled community engagement • Expanded social media engagement by 570% through cross-functional collaboration with marketing team and strategic inter-club partnerships, building sustainable growth channels beyond single events	June 2025 — Present Vancouver, BC
