

Peti (Pete) Setabandhu

(236)-983-5133 | Vancouver, BC | peteseta@student.ubc.ca | github.com/peteseta | linkedin.com/in/peteseta

EDUCATION

University of British Columbia

Vancouver, BC

Bachelor's of Science, Cognitive Systems: Computational Intelligence & Design

Aug 2024 — May 2028

- Cumulative GPA: 91.3%, 4.33/4.33 equiv.

WORK EXPERIENCE

Software Engineer Intern

May 2026 — August 2026

TN Digital Solutions

Bangkok, TH

- Enabled Government Savings Bank staff to design, validate, and launch new credit products without engineering involvement by shipping a self-serve policy studio and publishing workflow
- For a LegalTech agentic system, translated legal users' issue-tree workflow into measurable evaluation criteria, reducing average pipeline-run cost 22.7% and increasing law recall from 69.1%; presented the recommendation to decision makers
- Gave the backend team reusable workflows for schedule-data import and distributed-trace debugging by shipping Kendulix, a Schedulix importer, and Kenbani, an ELK-log visualizer

Analyst Intern

May 2023 — August 2023

Ratio Ventures Limited

Bangkok, TH / London, UK

- Secured key stakeholder engagement for Arogga's extended seed round and managed outreach for **24 portfolio companies**
- Shaped fund deployment by identifying high-potential SEA ClimateTech verticals that informed deal sourcing and screening

PROJECTS

Founding Product Lead, Rebase: Version Control for Resumes

November 2025 — January 2026

tryrebase.io

- Led product development from MVP to public beta, defining a roadmap that prioritized core functionality then differentiating features based on user testing; drove **85% latency reduction** by setting technical requirements for the LLM pipeline

Product Lead & Full-stack Developer, GrillMe AI: AI Mock Interview Platform

November 2025

devpost.com/software/grillme-ai

- Validated product-market fit with **200+ organic waitlist signups** and **top 4** at UBC BizTech/a16z Kickstart, identifying interview prep accessibility gap for early-career students; led **4-person team** to ship MVP in **12 hours**
- Reduced pain point (*time to interview start*) by **~80%** by defining product strategy that prioritized personalization (resume/JD-tailored questions); coordinated parallel development and made critical scope trade-offs based on early user feedback
- Relevant tools/libraries: *Figma, Supabase, OpenAI/ElevenLabs APIs, TypeScript, Cloudflare*

Product Lead & Developer, Mango: Full-Body Gesture Control For Any Game

October 2025

devpost.com/software/mango-full-body-gesture-control-for-any-game

- Won **1st place at HelloHacks 2025** by identifying accessibility gap in VR gaming and leading team to ship gesture control system; defined requirements balancing technical feasibility with UX, driving iterative testing
- Relevant tools/libraries: *FigJam, MediaPipe, Python*

TECHNICAL SKILLS

Product & Analytics: Figma, Figjam, Notion, Cloudflare Analytics, Vercel Analytics, Typeform, Github Projects, SQL

Development: TypeScript, Python, Supabase, Git, Cloudflare, Vercel

AI/ML: OpenAI, Anthropic, OpenRouter, ElevenLabs, MediaPipe, Tensorflow

LEADERSHIP AND ACTIVITIES

Co-President

June 2025 — Present

UBC AI Safety

Vancouver, BC

- Led a team of 16 to organize programs, events, reading groups, and workshops for Canada's most established AI safety student organization, with the goal of reducing existential and catastrophic risks from advanced AI systems
- As prev. Co-Facilitator, designed the curriculum for and facilitated this year's "Intro to AI Alignment" course for a cohort of 10 students; as prev. Event Coordinator, grew event attendance by **220%** and social media engagement by **570%**
