EDUCATION

University of British Columbia

Vancouver, BC

Bachelor's of Science, Cognitive Systems: Computational Intelligence & Design

Aug 2024 — May 2028

- Cumulative GPA: 4.33/4.0
- Relevant coursework: Models of Computation, Software Construction, Introduction to Music Technology

WORK EXPERIENCE

Music Producer and Mixing/Mastering Engineer

August 2024 — Present

Freelance

Vancouver, BC / Bangkok, TH

- Produced and engineered 2 EPs and 1 album, amassing 60,000+ streams in total on Spotify
- Professionally mixed and mastered 2 singles and 1 EP, in line with genre and technical conventions
- Communicated with clients to tailor services to their needs and budget constraints

Analyst Intern

May 2023 — August 2023

Ratio Ventures Limited

Bangkok, TH / London, UK

- Shadowed day-to-day VC operations; took lead on investor outreach, most notably on the extended seed round of Arogga, a Bangladeshi online pharmacy.
- Presented a report on SEA's ClimateTech space to the fund managers, including historical and projected trends and sectors to look out for.

Engineer Intern

May 2022 — October 2022

ETRAN (Thailand) Co., Ltd.

Bangkok, TH

- Proposed a method for upcycling functional end-of-life EV batteries into energy storage units for houses in rural Thailand with restricted access to grid electricity.
- Developed a process to integrate EV batteries with solar cells efficiently by studying their battery management and solar charge controller systems.

PROJECTS

Lead Developer, Mango: Full-Body Gesture Control For Any Game | Winner, HelloHacks 2025

October 2025

<https://devpost.com/software/mango-full-body-gesture-control-for-any-game>

- Developed and pitched a system that maps real-time body landmarks to keyboard and mouse inputs, creating a VR-like gaming experience that's open and affordable to everyone
- Received 1st place at Biztech's HelloHacks 2025 hackathon
- Relevant tools/libraries: MediaPipe, OpenCV, PyAutoGUI, NumPy, Python
